

Nickel Anti-Seize NBT-8/NBT-16

FEATURES:

- Broad temperature range lubricant
- Fine particle size flaked nickel, aluminum and graphite solid lubricants
- Homogeneously blended
- Satisfies MIL-A-907E

BENEFITS:

- Easy to apply paste
- No separation
- Copper free
- Recommended for the assembly and maintenance of threaded and press fit metallic parts on industrial applications, including chemical plants and oil refineries
- Excellent choice for applications on parts made with dissimilar metals
- Suitable for applications on parts made of steel, stainless steel, and titanium
- Use on bolts, nuts, bushings, flanges, couplings, pivots, etc. with close or loose tolerances
- Temperature range: -65° to 2600° F
- Low K value reduces friction during assembly
- Prevents seizing and galling
- Prevents rusting of threaded parts
